With over twenty years of accounting experience handling the books for a variety of businesses in Oregon and Washington, you can feel assured that your books are in good hands! Unfortunately we're often contacted after a client has realized their books have been mismanaged or they have put off managing their finances for months due to the perceived high cost of bookkeeping services. Such delays can cause irreparable financial harm to your business!

Now with COVERSE you no longer have to put off tomorrow what you can afford to do today! We offer professional, experienced and knowledgeable bookkeeping services tailored to the size and requirements of your business. Rather than a "one cost" fits all approach, we'll sit down with you and discuss your specific needs, what we offer, and then tailor a solution that fits your budget. You're in control of how much, how often and when you need assistance.

EXPERIENCE THE DIFFERENCE

How you manage your books will determine the success of your business. Smaller businesses often rely on paper or inadequate bookkeeping methods to track their finances.

With over twenty years of bookkeeping experience we'll get your books in order and keep them properly maintained, so you'll be assured of an accurate accounting of your finances, daily, weekly and monthly!
